** Activating IO72 **

Looking into activating IO72 and wanted to test the water on this.
Initially on 2M MS fsk I will use a single 9ele and power from 100
to QRO levels. Not sure of timing yet but hope to coincide with
some showers and be on at several times per yer (QTH is my in-laws
cottage). Possibly also 4/6m in the future if enough interest.

** Working K5QE on EME in our Sept contest... **

Hello to everyone in the EME community. This year, the ARRL
September VHF Contest will be held Sept 10th, 11th, and 12th
(only 3 hours). We want to work as many EME stations on 2M AND
432 as possible to increase our grid count. I know that the
EU VHF contests do not allow EME contacts, but the ARRL contests
do....and EME is a big part of our efforts here at K5QE.
Please help us with this event by working us on JT65b or CW.
Thank you very much. Please read all info in detail:

** Albania for a 20-year anniversary trip of ZA1QA **

It seems we go to Albania for a 20-year anniversary trip of ZA1QA,
we will be using ZA20QA. If there is enough interest I can take
a 6m EME capable station with me (6 element DK7ZB and 700 Watts,
manual elevation) and I see October 21-22-23 should be pretty good
for EME. Let me know if I should try. 73
